Summer 1985.

I am sorry that the summer issue of the Newsletter is so late. In late spring and early summer I was involved in some preparations for next years National Genealogical Society Conference to be held in Columbus, Ohio May 28- 31, 1986. If any of you are planning to attend let me know so we can get together.

Late in July I headed west to attend this years NGS Conference. I went by Am Track across the northern route, through the North Dakota Bad Lands. Past Glacier National Park, and down the west coast through the Cascades to San Francisco. The scenery was beautiful, and it was great to sit back and enjoy it without worrying about driving. The trains were very comfortable and the food and service better than I had expected.

After spending almost a week with my son Ben Cooper in San Francisco, I went on to Salt Lake City for the Conference, which was very worth while. I stayed on in Salt Lake for a week of research,

I got home just in time to start to work on the County Fair Flower Show. Then before I could get my notes and finds from Salt Lake organized and start the Newsletter started a house quest arrived and as soon as I took care of some commitments we took off on a trip to Lancaster County Pa. At last I'm getting started.

The ancestors of the Mumas in Canada are supposed to be Jacob and Betsy Muma from Pennsylvania. One account says they were natives of Germany. (were they really born in Germany or did later generations assume so because they still used the German language)?

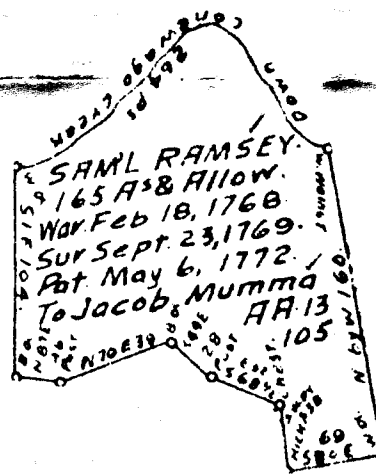

Much research has been done by several researchers, but this Jacob has not been fit into any family group. Since his oldest son was born in 1775 he was probably born ca. 1750. One possibility is 111 Jacob 111 Jacob was under 16 in 1731 when he arrived in America so he could have been starting his family about 1745-1750 and his oldest son was Jacob. Another possibility would be that Laurentz had a son Jacob. The ship Two Brothers that Lorentz came on in 1747 did not list the children so he could have had a son born in Germany about the right age to be the Jacob who went to Canada.

He may be the Jacob who acquired this land from Samuel Ramsey, which he patented in 1772. About the time he would have been married. This might even suggest a Ramsey connection.

This land is in the part of Donegal Twp that is now Conoy. There is no Jacob listed in the 1790 census in Donegal, so the owner of this property must have left before that.

Jacob son of Jacob and Betsy, who went to Canada was supposed to be born in Virginia in 1791. Possibly they went to Virginia for a few years before emigrating

Using the code letters jc for Jacob of Canada and Dr, Kloeppers numbering system I will list the first three generations of this family from the records of Robert Muma. If any one wants further generations on any family write to me and I will copy it for you.
